Birthdate: 1987-07-07

SUMMARY

Full-stack application developer since 2009. My best skills are javascript and Node.js. Fan of Serverless, AWS, REST APIs. I also have a background with Asp.Net, Java, Php and Flash Mx. Always happy to do something new & cool. Bored when doing the same things. Last year's spend as remote web developer in Xara.com with startup episodes.

EXPERIENCE

Javascript Developer, Xara
xara.com
Remote — 2016-08 - 2020-05

Working on a beautiful and 'noteworthy' online document designer.

Technologies
React.Js, Redux, MaterialUI, Javascript, Gulp, Less, Node.js, html5, svg graphics.

CTO, Full-Stack Javascript Developer
screen4fans.com

EDUCATION

2006-2011 Silesian University of Technology in Gliwice.
Faculty: Automatic Control and Computer Science.
Field: Computer Science
Specialization: System Software
Title: Master of Science, Engineer

SKILLS

Javascript(ES6, ES5), Typescript
Node.js
Web-development,
Frontend Frameworks (React.Js, AngularJs), Node.Js, E2E&Unit Testing (Mocha, Karma, Jest),
Databases (PostgreSQL, MongoDb, MSSQL, MySQL),
CI Development (TeamCity, Jenkins),
SourceControl Systems(GIT, SVN)
Mobile dev(React Native)

Remote — 2017-08 - 2018-09

Startup application that allows to perform interactive polls using stadium led screen/telebim(football pitch,indoor, horse racing). After a year of development and testing on 4 stadiums we sold our project to investors.

Technologies
React.Js, Node.js, AWS, Lambdas, Serverless, Redux, MaterialUI, Javascript, webpack, Less, node.js, mongodb, Teamcity

Owner hooper.pl
Remote — 2019-02 - suspended

Owner of startup mobile app for electric scooter sharing system. Unfortunately Coronavirus stopped our plans as the electric scooter market is very low in Poland. Around 80 % of app is ready so maybe back to this in future.

Technologies
Node.js, React Native, Typescript, React.js, Mobile app, REST API

Full-Stack Javascript Developer, akcars.pl
Remote — 2015-08 - 2015-12

Side project where I created a frontend & backend for a car auction system. Still work with akcars.pl - features and improvements.

Technologies
React.Js, Node.js, Redux, MaterialUI, Javascript, webpack, Less, node.js, mongodb, web scraping, REST API

Senior Software Developer, Billennium
